New Superintendent of the Asylum in a Peck of Trouble—All Due, It is Alleged, Because of the Autocratic Attitude He Has Assumed—Has an Idea That He is the Carr and That the Asylum is Russia.

PROVO, May 21.—The graduating exercises of the B. Y. academy were held this morning in the stake tabernacle. The main part of the building was filled by the students and their friends, and the galleries were also in use.

Elder John Nicholson gave the students some good advice, after which the promotion slips were presented to those who had finished the course prescribed in their departments.

The diplomas were issued to the commercial class, who were mentioned in this morning's Herald.

The degree of bachelor of pedagogy was conferred upon the following named students, who have completed the course and are now capable of teaching: Irene B. Mendenhall, J. W. Booth, Janet Findley, Grace Christensen, Principal B. Cluff, Jr., presented his report to the board of trustees, which was very satisfactory. The report shows that there was enrolled during the year just closing 351 students.

OTHER NOTES.

Walter Ship, who pleaded guilty to selling liquor on Sunday, was fined \$25 or twenty-five days.

Judge Saxey heard the testimony in the Paxman case and reserved his decision till Saturday next.

Attorney George Sutherland of Salt Lake is doing business in Provo today. Almon Root, of Old Mexico, is in the Garden City today on business.

Jovial Billy Reed, traveling passenger agent of the Rio Grande Western, is in Provo, to make arrangements to ride to their homes on his road.

Charles A. Dupes, executor, is suing John D. Shaffer et al. to collect \$3,189 on a promissory note, and for foreclosure of mortgage securing the same.

There is no change in the condition of the asylum. New hands have been put in the places of those who left yesterday and the day before. The name of the man to take the place of Brockman is John Hanson, instead of Johnson, as reported. It is common talk that all of the old hands will quit as soon as their places can be filled. The trouble is caused by the autocratic manner of the new superintendent.

PRESBYTERIAN CHURCH.

One Hundred and Eighth General Assembly.

NEW YORK, May 21.—The one hundred and eighth general assembly of the Presbyterian church of America began its sessions at Saratoga at 11 o'clock today.

The scheduled business of the assembly is the consideration and ratification of the benevolent and missionary work of the denomination. For this purpose certain days and hours are set apart according to a fixed schedule.

Interpreted among these regular orders is the consideration of the denominational matters which have great interest to many who are outside as well as inside of the church. Prominent among these is a report to be submitted by a committee of eleven, Dr. David B. Reed, of Pittsburgh, chairman, and six others, on the subject of the "whole subject of young people's societies and their relation to the church."

Another burning question has regard to the answer of the New York Presbytery to the action of the late assembly enjoining it from receiving under its care, with a view to licensure, the students from Union Seminary.

Another report that will be awaited with interest is dealing with relations of the assembly to theological seminaries.

OGDEN BUREAU.

Business and Editorial Office 519 Utah Loan and Trust Building. Telephone 135.

Ogden, May 22.

A PROMISING PROSPECT.

Ogden mining men are watching with considerable interest the work of Moritz Richter in developing his prospects in Ogden canyon. Mr. Richter is not talking about the mine himself, but others familiar with the place say it is a perfectly defined vein twelve feet in width, has been discovered. Several old prospectors say it is the best ore they have ever seen. In Weber county, S. A. says it is known to have assayed \$120 to the ton, over half the amount being in gold and the rest in silver, lead and copper. The prospect is located in Ogden canyon, within six miles of Ogden. The owner, Moritz Richter, a workman at the Utah Loan and Trust building of the ore will soon be made.

Next Tuesday, from 2 to 10, the members of the Weber club will tender a reception to the ladies of the city in the club rooms in the Utah Loan and Trust building.

The road race on Decoration Day will be to the springs at Stillwell, in H. Beacraft and J. P. Ledwith will be the handicapping committee. There will be an afternoon ball game and a dance in the evening.

Mr. E. F. Sammon, of Evanston, has come to Ogden to engage in the hotel business.

Roland Reed's leading lady in "The Politician" is one of the most beautiful ladies on the American stage.

S. S. Sandford, of the Rio Grande Western, has resigned his position and gone to Gunnison, Colo., to look after his mining interests.

Next Tuesday, from 2 to 10, the members of the Weber club will tender a reception to the ladies of the city in the club rooms in the Utah Loan and Trust building.

The Herald representative acknowledges a daintily printed invitation reading: Yourself and ladies are cordially invited to attend a social ball to be given in the Third ward amusement hall Friday evening, May 22, 1896, at 8:30. Present invitation at the door.

Some women are born stronger than others. Some are born with what is called "constitutional weakness." It is easier for some women to retain health and strength than it is for others. Some seem able to do anything and others are unable to do anything but rest. Still, there is no reason why women should not enjoy perfect health. Those who do not, need only to take the proper precautions and the proper remedy to become perfectly well and strong. Dr. Pierce's Favorite Prescription will cure any derangement of the distinctly feminine organism. It is absolutely certain. There are some who have neglected themselves so long that complete cure is impossible, but even these will find comfort and improved health in the use of the "Favorite Prescription." It has cured hundreds of women who have received no relief whatever from years of suffering. It is a railroad map of long experience, having been used and approved by the world's best physicians. It is absolutely unique in the history of medicine. Such a remedy can be discovered only once. There is nothing in the world like it, nor has there ever been. Its sales exceed the combined sales of all other medicines for women.

LOST A HAND.

Fred Hayes, the conductor who was hurt yesterday on Eureka hill, was brought up from the south, arriving about 1 o'clock, and was taken to the Union Pacific hospital. The usual routine of railroad employees was maintained and none knew anything about the accident until he was brought up.

At least would not disclose it. However, the version of the affair most freely "surmised" was that Hayes, who was a freight conductor, was walking ahead of a moving train, and in some switching, when a splinter of iron from one of the rails caught his trousers-leg and threw him. By hard and rapid exertion he managed to release himself from the iron and, diving, he caught his left arm, which was caught under a car and was yesterday amputated just above the wrist joint by Dr. Perkins.

He is a railroad man of long experience, having been employed by the Southern Pacific at this place about three years ago. Later he worked a while for the R. G. W. and since then has been employed by the Union Pacific on the Eureka division. He is doing the operation well and is resting easily.

However, those supposed to be interested in the scheme are very reticent about it, but all admit its feasibility and its possibility.
